Professional Summary

Versatile, solutions-driven Corporate Events Professional with over a decade of experience spanning technical direction, project management, and high-level video engineering. Proven track record of executing successful live, virtual, and hybrid experiences through precise preproduction planning, rapid on-site decision making, and expert crew management.

Core Expertise

Production & Project Management

- End-to-End Execution: Preproduction planning, Vectorworks diagramming/renders, Run of Show generation, and showcalling.
- On-Site Logistics: Efficient setup/strike management, dock/truck coordination, push paths, storage optimization, and rigorous crew management under tight timelines.

Video Engineering & Switching

- Advanced Switching Platforms: Expert operation of Analog Way (Aquilaon, LiveCore, Pulse), Barco E2/Event Master, Pixelhue (Q8, P20), Ross Carbonite, Roland (V-160/V-60), and Blackmagic ATEM.
- Network & Control: Custom control surface programming and networking utilizing Bitfocus Companion/Buttons.

Core Expertise (cont.)

.
.
.

LED Wall & Projectionist

- LED Technician: Advanced processing (Novastar NovaLCT/SmartLCT/COEX, Brompton) across major panel brands (ROE, Absen, Infiled, Unilumin). Skilled in data/power redundancy, multi-batch matching, ballast/ground support safety, and module line correction.
- Projectionist: Setup of Panasonic, Barco, Christie, and Epson fleets. Proficient in lens calculations, blending, stacking, and projection mapping.

Media, Graphics & Show Control

- Graphics & Playback: PowerPoint/Keynote design (animations, real-time edits), APS, Mitti, PlaybackPro, and VLC.
- Media Servers & Titling: Resolume, Millumin, Pixera, Disguise, and live lower-thirds via vMix.
- Teleprompter: Script management, real-time editing, and redundant software configuration.

Virtual, Hybrid & Web Platforms

- Streaming & Platforms: vMix, OBS, and custom live stream layout/web hosting.
- Event Management: Virtual event execution via Zoom, Teams, and Webex. Attendee registration, ticketing, and custom portal design using Swoogo.

Power, Rigging & General AV Support

- Power Distribution: Layout and execution of 110/208v three-phase power systems, including load balancing calculations and circuit diagramming.
- Technical Support: Experienced Breakout Lead; cross-functional support in Video, Audio, and Lighting Assist.
- Staging & Logistics: Scissor lift operation, cable management, inventory control, pipe & drape, and modular scenic construction.
